Quick and easy implementation

We make it simple to get new hires up and running without endless amounts of paperwork.

It's as simple as 1 - 2 - 3!

STEP ONE

From your client dashboard, locate the **Date Feed** section and click **Carrier**.

STEP TWO

From the list of Available Services select **MeMD** from the drop-down menu, then follow the on-screen instructions.

STEP THREE

Once MeMD has been added, you will see our service listed as a live connection. You will also receive an **email** confirming the file has been sent to MeMD.
